

Full-Stack • Unity • Mobile Developer

Raimo Parkkila

Full-Stack Developer • Unity Developer • Mobile Developer • IT Specialist

ABOUT

I build stable and functional software systems combining backend logic, interactive applications, mobile solutions and real-time multimedia experiences. 25+ years of programming experience in backend, full-stack and game development.

CORE EXPERTISE

- Full-Stack: React, Node.js, TypeScript, PHP
- Mobile: React Native, Android, iOS
- Game Dev: Unity, C#, 3D systems
- Databases: MongoDB, MySQL, SQLite, Supabase
- Languages: JavaScript, TypeScript, Python, Java, PHP, C#

UNITY & MULTIMEDIA

House of the Rising Sun – Unity audiovisual project
Music + 3D + real-time systems (Unity, C#, Cubase, DaVinci Resolve)

FEATURED PROJECTS

ERP Commerce System

Full-stack ERP system with inventory, invoicing, authentication and admin dashboard
<https://github.com/RaimoParkkila/erp-commerce-system>

Training Cycle

Workout planning and periodization application for bodybuilding and strength training
https://github.com/RaimoParkkila/training_cycle

LinguaLux-2 Learn

Mobile language learning application with structured learning flows
<https://github.com/RaimoParkkila/lingualux-2-learn>

LinguaLux Web

Browser-based language learning platform
<https://github.com/RaimoParkkila/lingualux-web>

ADDITIONAL PROJECTS

RPA ERP Web

Business workflow automation and ERP-oriented web platform
<https://github.com/RaimoParkkila/rpa-erp-web>

chronoForge

High-precision interval timer and training productivity application
<https://github.com/RaimoParkkila/chronoForge>

Food Calculator

Nutrition tracking and macro calculation application
<https://github.com/RaimoParkkila/FoodCalculator>

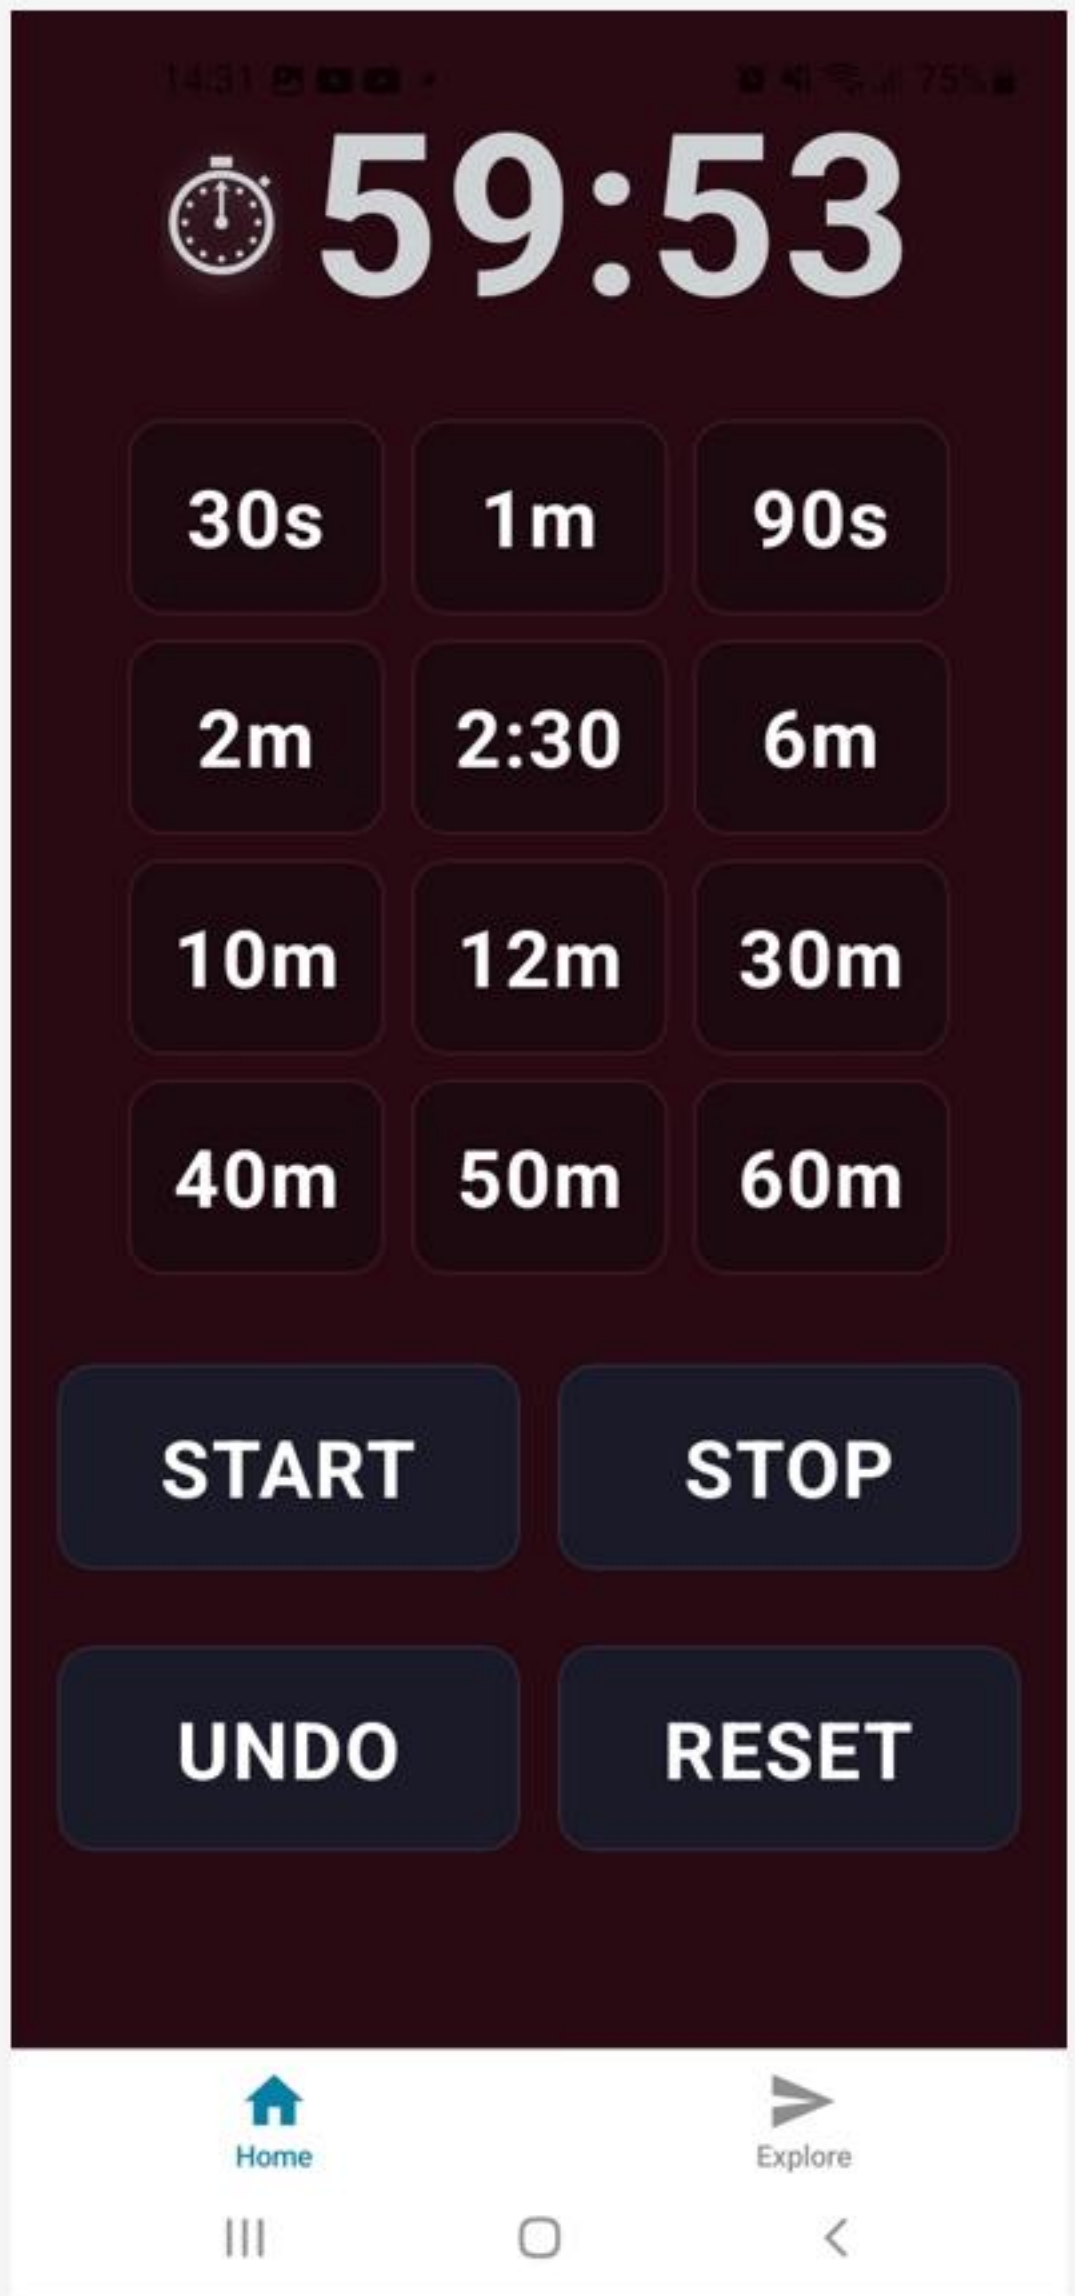

Dososupli

Supplement tracking and dosage scheduling system
<https://github.com/RaimoParkkila/dososupli>
